Caring for more than one person Additional Questionnaire (1)

You have now completed the main **Survey of Carers Pilot Study.** Thank you for your responses.

If you provide care or support to **more than one person**, this additional questionnaire gives you the opportunity to answer **7 questions** about **another person.**

This could be another family member, friend, neighbour or someone else you provide care or support to for reasons related to long-term illness, disability, physical or mental health conditions or illnesses, substance misuse, or older age.

Please answer the questions in this questionnaire about one additional person only. This should be a different person from the person you answered about in the main Survey of Carers Pilot Study.

You can answer these questions for up to **three other people you care for.** If you would like to answer about more than one additional person, please complete a separate questionnaire for each person.

If you do not care for another person, you do not need to complete this questionnaire.

As with the main Survey of Carers, taking part is voluntary. You can choose not to answer any question or stop completing the questionnaire at any time.

Please start at Question 1 on the next page.

Thank you again for your help.

1 **Thinking about the people you care for, which person have you mainly been thinking about when answering the questions in this survey?**

Please tick [✓] one option

- ☐ Spouse/partner/husband/wife
- ☐ Child/son/daughter under the age of 18 (including biological, adopted, foster or stepchild)
