The Survey of Carers Needs You

Centre for Care at the University of Birmingham is inviting people who support a partner, family member, friend, neighbour or other to take part in the **Survey of Carers.**

Caring for someone often involves supporting them with everyday tasks such as **managing medication** and **finances**, **cooking** and **cleaning**, and helping with **personal care.**

The Survey of Carers wants to capture the **real-life experiences** of unpaid carers across England.

People who are committing their time, energy and care to support someone else.

That is why the survey was designed and tested by **unpaid carers themselves.**

All answers are
completely annonymous.

Nothing identifiable will be published in any reports or findings.

That is a Survey of Carers
gaurantee.

This is your opportunity to have your voice heard.

By sharing your experiences, you'll help inform decisions made by policymakers, including your local council, about the support unpaid carers like you need.

The views expressed are those of the author(s) and not necessarily those of the NIHR or the Department of Health and Social Care.

Shape the future of adult social care.
